Dear Dr. Rinella,

Congratulations in your new endeavor into the field of spinal disease and spinal surgery.

There is no doubt in my mind, with your knowledge, ability and integrity, that you will bring the care of the spine to a new level of understanding and competency to the entire world.

I am forever grateful to you for my "straight-as-an-arrow back" that is free of the horrific pain I once experienced. If you ever wish to use me as a reference, please feel free to give my telephone number to any potential patients, so that I may encourage and enlighten them to know that they are dealing with the very best doctor, when it comes to spinal care.

Yes, we went through a lot together, but where would I be today, if we had not chosen to initiate any pro-active surgical options.

Again and again, my husband, Frank, and I thank you for everything you've done for us.

Gratefully,

Nancy A. Wigand
